

A true business partner

A background image showing a group of business professionals in an office setting. In the foreground, two people are shaking hands, symbolizing a partnership or agreement. Other people are visible in the background, some looking towards the camera and others looking away. The image is overlaid with large, diagonal, semi-transparent orange and grey geometric shapes.

COMPANY PROFILE 2020

www.moozotech.com

Embrace **Imperfection**

Embracing the messiness and complexity of the system to make sure that the products are future proof and free of bugs and errors .

THE COMPANY

We are a family of adept and experienced experts who live and breathe innovation & come up with a unique idea no matter you talk about work or fun.

Our Core Values

Collective Effort

Being part of something bigger than you is a proven way of expanding one's horizons. This is why we believe that we should always work as one and always help each other. Collective effort is one of the values that brings Mooze Tech to a new level of accomplishment.

High Expertise

Quality software development services can be provided only by true professionals. High expertise is the basis that each and every one of our employees must prove in order to start working for Dreamix. The adept knowledge of our developers helps us provide services that are classified beyond technology.

Responsibility

Everything that our software development company has accomplished wouldn't have been possible without great responsibility. Taking chances, but always thinking of the consequences, standing behind what you believe, but understanding the others is what helps us maintain the balance in the company and our environment. Responsibility helps build trust and high quality software for our clients.

Knowledge Sharing

Expert advice, new ideas and a different point of view are a necessity when it comes to personal and professional growth. Sharing with our team not only helps maintain the friendly work environment, but also helps us develop and overachieve every day. At Dreamix we help our team by providing many trainings, extra courses and different opportunities to get certified for their proven skills.

Proactiveness

No matter how much work experience you have or what your position is, at Mooze Tech you always have a vote and the right to speak up your mind. Great ideas are born in discussion and everyone brave enough to share their thoughts and support them with data is of high value to our Mooze Team. Proactiveness is what help us get better as a company every day. At Mooze Tech experience is a necessity but is not enough. At all times people are working on making their projects and products even better.

Who We Are

**OUR MOTTO:
DO GOOD. RELAX.**

Hi! We are Arbind Kumar and Rahul Kasgar, two individuals with a passion for creativity — creativity makes us happy. We truly believe in the transformative power of Software Development, illustration and design and their ability to simplify communications, elevate experiences, engage and inspire people everywhere. Good design and good relationships come from collaboration.

At Mooze Tech, We combine our technical knowledge and experience with customers idea, our Passionate team always delivers the best of its innovation and creativity. We create end to end solution for the complete satisfaction of proven skills

OUR MISSION

We are a family of adept and experienced experts who live and breathe innovation and come up with a unique idea no matter you talk about work on fun. We honour the agreed Time, Quality and Budget parameters at any cost

HOW WE WORK

We provide custom end-to-end software product development services following the highest enterprise standards with even higher devotion. Explore Mooze Tech with our:

1. Agile Software Development

All of our teams follow Scrum methodology, which has proven to give great results and keep all the project stakeholders in sync.

2. Regular calls and meetings

One of our top priorities is quick reaction time and accessibility. Our team is always one phone call, skype call or email away.

3. Best Development Practices

With us you can rely on a stable demo environment, adept QA and testing, an always accessible and secured code and fast deploying.

4. High Personal Involvement

We aren't always on standby, due to someone's demands. We do it because we love what we do and the clients' success is our success.

WHY MOOZE TECH

Start from Dream Grow with Passion

We believe in searching for mastery.
We believe in caring for each other.
We must contribute to the progress of society.
The way we search for mastery and care is by
building relationships, passionately
going through challenges and communicating
effectively. Best quality bespoke software
development is what we do to impact mankind
for the better.

THE MOOZE TECH DIFFERENCE

Digital technologies have drastically changed the way businesses operate. Businesses are increasingly trying to provide a superior and seamless experience to their customers, and thus improving their bottom line.

The proliferation of mobile devices, advanced knowledge of consumer behavior powered by analytics and emergence of Cloud has thrown up new opportunities as well as challenges to businesses. Companies are struggling to innovate and grow due to fragmented technology landscape, constant product evolution and changing consumer preferences.

Every product that we create are backed by a thorough market research, an in-depth analysis of the required technology stack and a Quality Assurance Process that guarantees its marketability.

How We Help

MOOZE TECH enables digital transformation for global organizations. Our digital transformation consulting leverage a wide spectrum of digital technologies to help companies improve products and services, enhance customer experience, enter new markets, and increase revenues.

The solution is to develop Digital Experience Platform in the context of your enterprise by leveraging your existing assets and investments into data, software and tools. Innovate, Modernize and Transform with the MOOZE TECH Platform
